PROFILE

I'm a passionate Full Stack Developer with a strong foundation in both front-end and back-end technologies. I thrive on transforming ideas into functional, user-friendly applications. With experience in JavaScript, React, Node.js, and various databases, I enjoy tackling challenges and continuously learning new technologies. My goal is to create seamless digital experiences that meet user needs and drive business success.

WORK EXPERIENCE

Software Engineer

C-SQUARE 2024-Present

Full-Stack Developer with experience in multiple projects utilising:

- React.js for building dynamic user interfaces
- Node.js for server-side application development
- Python for backend processing and data handling
- HTML/CSS for responsive web design

Additional Skills:

- Experience with database technologies such as MongoDB and SQL
- Familiar with version control systems like Git
- Strong problem-solving skills and ability to work in Agile environments
- Excellent collaboration and communication abilities in cross-functional teams
